# Dr Drishti Sagar, MD

Clinical Microbiologist | Gold medalist | Infection Prevention and Control Specialist | Public Health Enthusiast  
New Delhi, Delhi, India

## Summary

Happiness and bacteria have one thing in common; they multiply by dividing!!!

As a Public Health Professional, I am committed to gaining insights into the dynamics of infectious diseases and work with others who are equally motivated and passionate about drafting solutions to global issues.

I spend my days improving research methodologies, public speaking, strategic thinking, and writing skills, in addition to critical thinking, teamwork, and leadership abilities.

Presently I aim to acquire the requisite skill set and sparkle to be the best in the industry.

---
